## About Frost Egypt

Our company started with a basic idea: international buyers have a hard time securing consistently high-quality, **pesticide-free**, and expertly frozen fruits and vegetables from Egypt. We recognize this problem and are addressing it by serving as a stringent sourcer, manufacturer, and exporter of frozen fruits and vegetables. Our top products are listed below along with some useful information – we can easily adapt them to whichever packaging format our customers prefer (e.g. Bulk 10kg boxes, Catering & Foodservice packaging, Private Label packaging).

**FROST EGYPT**  
Frozen Fruits and Vegetables

## Strawberries

Our top product is frozen strawberries. Whether your order is for specific varieties (e.g. Festival, Fortuna, Sensation), specific cuts (e.g. sliced, diced), or calibrated sizes, we can easily provide a practically unlimited quantity of strawberries each year. We took recently took a crucial step to keep significant quantities on hand throughout the year. We export frozen strawberries to Europe, the Far East, the U.S., Canada, and Latin America.

*Availability: Year-round*

## Mangos

Zebdya, Keitt, or Kent varieties are always available. Our customers have varying cutting/slicing requirements (e.g. 10x10mm cubes, 20x20mm chunks), all of which we cater to.

*Availability: Year-round*

## Pomegranate

Egypt grows some of the world's best pomegranates. We expertly extract bright red arils from ripe pomegranates, and then freeze them while carefully ensuring that they never stick to each other.

*Availability: Sep to Dec*

## Broccoli

Premium Egyptian frozen broccoli florets, carefully selected and IQF-processed for consistent quality, year-round availability, full compliance with global food standards, and offered in all calibrated sizes.

*Availability: Nov to Mar*

**FROST EGYPT**

## Artichokes

High-quality frozen artichokes in both hearts and bottoms, available in all calibrated sizes and IQF-frozen for year-round consistency, exceptional quality, and full compliance with global food standards.

*Availability: Year-round*

## Pommes Frites

Frozen French fries in straight, steak, and crinkle cuts – delivered in any cross-section calibration you require. Alongside our semi-fried varieties, we also supply regular frozen potatoes (peeled, cut, or diced to your specifications).

*Availability: Year-round*

## Cauliflower

Egyptian frozen cauliflower florets. Harvested at peak freshness, carefully selected, and IQF-frozen to preserve its natural whiteness flavor, and nutrition, with all calibrated sizes available.

*Availability: Nov to Mar*

## Other Products

Okra

Green Beans

Spinach

## Vegetable Mixes

Peas & Carrots

3-Way Mix

4-Way Mix

California Blend

## The Frost Egypt Difference

At Frost Egypt, our commitment to quality begins long before the freezing stage. We work hand-in-hand with Egypt's best farms, carefully selecting the very best fruits and vegetables right from the source. Each farm we engage with is held to strict standards: **we only contract with Global G.A.P farms, we conduct regular audits, test for pesticide residues, and screen for foreign bodies** to ensure that only the safest, cleanest, and most flavorful crops make it into our supply chain. This vigilance gives our customers confidence that every product they receive is both healthy and traceable.

Once the raw materials meet our exacting standards, we thoroughly cleanse the produce, then apply our deep expertise in Individual Quick Freezing (IQF). Our process locks in nutrients, flavor, and texture by flash-freezing each piece of produce individually. The result is a product that tastes fresh, cooks evenly, and offers unmatched versatility – whether you are an industrial buyer sourcing ingredients, a retail brand offering premium frozen foods, or a catering service providing nutritious meals.

By combining farm-level accountability with state-of-the-art freezing technology, Frost Egypt delivers frozen fruits and vegetables that set a new benchmark for safety, freshness, and reliability in global markets.

## Quality and Safety Certifications

To guarantee the safety, quality, and consistency of our products, Frost Egypt is registered and certified by the following global entities:
